DESCRIPTION

The Coach House was built by Wilton Construction of brick under a slate roof and is approached over a sweeping shared (with Whitewell House) tarmac drive leading to its own York stone flagged entrance drive. The house was built in 1992 by our clients family for their own enjoyment and use. Accordingly, the house was designed, constructed and finished to a specification far beyond the norm and in addition, the landscaping works were completed with long term enjoyment in mind. The Coach House was built in the grounds of Whitewell House, an early 19th Century, grade II listed, building. Whitewell House, owned by our clients, has been used as offices since the 1970's.

Internally the house has a stylish design that combines light and elegance with practicality and style. The house extends to about 2,500 square feet (gross internal) plus the integral garage (340 square feet). The amount of natural light, together with the direct access to the gardens from the house on the ground floor makes for a superb combination.

The gardens enjoy privacy whilst minimising maintenance. There are York stone flagged seating areas to the West and East for alfresco dining.
